Name: _____ Pd: ___ Ast: A2

**SCIENTIST QUOTE**

1) Copy your quote in the space below (*your quote is on your seat number*).

2) Who said this? (*The scientist's name is listed to the left of the quote and below your seat number.*)

3) What do you think the quote means? (In your own words, what was the scientist trying to say? What is the important idea?)

4) Reflect on your quote. *Do you agree? Disagree? Does it cause you to think? Does it spark a memory or an idea in your own mind? Can you connect this quote to something from your own life?*
Why do you think Mr. Hanna chose to use this quote for class? Write your thoughts below.

**HOMEWORK (Due Friday 8/16)**

5) Find an inspirational quote of your own that you would like to share with the class. The quote can be about anything that inspires you (school appropriate). It can be from a famous person (or not), from a speech, a book, a poem or song, or some other source. **Respond on the back of this paper and include the following:**
   A. The quote
   B. The source (*who said it*)
   C. The importance (*Why did you choose it? What does it mean? How does it inspire you?*)
