Partner (if applicable): _____ Pd: _____

Science Fair Topic Proposal

Due MONDAY, AUGUST 26

On this paper, list **3 topics** you would like to research (*in order of preference*). You will discuss your options with Mr. Hanna and together will decide which one is the best question for you to continue researching.

Things to consider: You will NOT be permitted to work with any animals (including humans). Projects involving human subjects or dangerous situations (ex: fire) in any way will be rejected. If you want to work with a partner, you and your parents must sign a partnership agreement form.

Topic: General topic of study (i.e. – botany/plant biology, physics, engineering, chemistry, etc...)

Research Question: The question should be specific, identifying a narrow research focus (include IV & DV if possible).

Topic #1 (first preference):

Research Question:

Topic #2 (2nd choice):

Research Question:

Topic #3 (fallback option):

Research Question:
